NU SKIN SCIENCE

Scientific innovation in both personal care and nutrition has established Nu Skin as a leader in the health and beauty industries. Our proprietary product formulations and technologies enable us to set new industry standards in anti-aging, with real solutions that exhibit demonstrable results. Our team of in-house scientists illustrates our commitment to research and development. These collaborative relationships help us create next-generation skin care and nutritional products with an enhanced understanding of the genetic basis of aging.

Nu Skin owns the assets of LifeGen Technologies, which gives Nu Skin more than 30 years of research in the genetic basis of aging. Ownership of LifeGen's pioneering research combined with Nu Skin's ongoing research will allow us to use this knowledge to develop innovative proprietary products far into the future.

6S QUALITY PROCESS

1. SELECTION

Teams of experts around the world exhaustively compile both historical and current intelligence about ingredients.

2. SOURCING

Once a selection is made, our experts travel the globe to investigate potential commercial sources.

3. STRUCTURE

Our scientists carefully analyze the chemical structures of compounds found in natural products to identify not only the active constituents, but also any potentially unsafe compounds.

4. STANDARDIZATION

Although wide variations in active ingredients are characteristic of most natural products, each Pharmanex product contains the guaranteed amount of active ingredients.

5. SAFETY

Pharmanex sets standards for product safety by conducting our own extensive safety studies against all available relevant data.

6. SUBSTANTIATION

Our adherence to documented proof instead of anecdotes differentiates Pharmanex from other companies.

NU SKIN ANTI-AGING SCIENTIFIC ADVISORY BOARD

The Nu Skin Anti-Aging Scientific Advisory Board brings together the best minds in research in the areas of skin care, nutrition, genomics, and bioinformatics to ensure that Nu Skin continues to provide innovative and exclusive anti-aging products that demonstrate a real difference.

60 TWO-SIDED SACHETS, 30 DAY SUPPLY ITEM 01 003610

LIFEPAK NANO PROVIDES NUTRITIONAL SUPPORT FOR ALL BODY SYSTEMS AND ORGANS

HARD-TO-ABSORB NUTRIENTS ARE NOW MORE READILY AVAILABLE TO YOUR BODY

Because of the nanotechnology in LifePak® Nano, you get the most nutritional benefit from every capsule. Through a process called nanoencapsulation, individual molecules of nutrients are embedded into a single nanocapsule molecule. This process prevents nutrients from clinging together, so they are individually dispersed and more available for easy absorption.*

PHARMANEX® BIOPHOTONIC SCANNER

HOW DO I KNOW MY SUPPLEMENTS ARE WORKING?

The answer is the newly redesigned Pharmanex® BioPhotonic Scanner. The scanner is updated with the latest technology to provide the most accurate, noninvasive, fast, and convenient way to determine your antioxidant status and show whether your supplements are actually protecting you.

Simply place the palm of your hand in front of the scanner's safe, low-energy blue light, and within seconds you will obtain a reading of the carotenoid antioxidant levels in your skin—your Skin Carotenoid Scores (SCS)—which had been scientifically correlated to your total antioxidant status.

SCIENCE BASED AND CREDIBLE

Pharmanex is the exclusive owner of the patented BioPhotonic Scanner technology. Developed by doctors and scientists at a top U.S. research university, the Pharmanex BioPhotonic Scanner is the world's first and most advanced tool to measure carotenoid antioxidant levels noninvasively in living human tissue.

A CULTURE OF GIVING

Nu Skin's culture of giving unites Nu Skin's global family of distributors, customers, and employees in innovative efforts that multiply the company's ability to nourish and uplift children.

NOURISH THE CHILDREN[™]
AN INITIATIVE OF NU SKIN ENTERPRISES

NU SKIN FORCE FOR GOOD FOUNDATION

The mission of the Nu Skin Force for Good Foundation is to improve the lives of children by offering hope for a life free from disease, illiteracy, and poverty. Since Nu Skin covers all administrative and overhead costs for the Foundation, 100% of donations from generous distributors and a portion of sales from our unique Epoch® personal care line is used directly to improve the health, education, and economic opportunity for children.

NOURISH THE CHILDREN

In 2002, Nu Skin took action to address the tragedy of childhood hunger with the development of the Nourish the Children Initiative. This innovative social enterprise* applies the rigor of successful business practices to provide a consistent and growing supply of nourishing food to the world's most needy children. The concept succeeds by selling a highly-nutritious food—VitaMeal®—and allowing people to donate their purchase to third-party, non-profit organizations that specialize in distributing food to those suffering from malnutrition and famine.

VitaMeal is formulated by Nu Skin's nutritional scientists and collaborators specifically for malnourished children.** It boasts 25 vitamins and minerals and a careful balance of carbohydrates, protein, fat, and electrolytes. One bag of VitaMeal holds 30 child-sized meals—enough to provide one nourishing meal a day to a child for a month. Since 2002, more than 350 million meals have been donated through Nu Skin's Nourish the Children Initiative.

MAXIMIZING YOUR IMPACT

For every VitaMeal 5-pack you purchase and donate, Nu Skin also donates one bag of VitaMeal. For all other VitaMeal donations, Nu Skin matches one bag for every eight bags purchased.* With VitaMeal plants in Malawi and China, Nourish the Children is helping create new jobs and opportunities.

For more information visit nourishthechildren.com

*The price charged for VitaMeal includes the cost of manufacturing and sales commissions to distributors as well as a reasonable profit margin.
